Summary

Results-driven Full Stack Web Developer with 3+ years of experience in designing, building, and maintaining scalable web applications. Proficient in front-end and back-end technologies including React.js, Next.js, Laravel, and Spring Boot. Adept at Agile development, API integration, and deploying secure, high-performance solutions. Strong collaboration, problem-solving, and communication skills.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, PHP, SQL, MySQL, MongoDB

Front-End Technologies: React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI, Framer Motion, HTML5, CSS3

Back-End Technologies: Laravel, Spring Boot, RESTful APIs, JWT, OAuth2, Flyway Migrations

Databases: MySQL, MongoDB, PostgreSQL (basic)

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Figma

Development Practices: Agile Scrum, Responsive Design, Test-Driven Development (TDD), Version Control, CI/CD (basic)

Soft Skills: Team Collaboration, Analytical Thinking, Problem Solving, Time Management, Communication

Professional Experience

Full Stack Developer, Creation Soft Nepal

Oct 2023 – Feb 2025

- Designed, developed, and maintained a secure, role-based admin panel for inventory management using React.js and Laravel.
- Implemented OAuth2 and JWT-based authentication mechanisms to enhance access control, security, and session management.
- Created and optimized scalable RESTful APIs, improving performance and reducing latency by 50%.
- Integrated third-party APIs, including payment gateways and social login providers, improving platform interoperability and user convenience.
- Collaborated cross-functionally with Project Managers, Backend Engineers, and UI/UX Designers to deliver full-stack solutions within sprint deadlines.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and iterative code reviews to ensure high-quality and timely releases.

Front-End Developer Intern, Creation Soft Nepal

July 2023 – Nov 2023

- Developed responsive and accessible UI components using React.js and Tailwind CSS, aligned with modern design principles.
- Boosted front-end performance by 50% through code splitting, lazy loading, and virtual DOM optimization.
- Contributed to building internal UI libraries, streamlining component reuse and reducing development time.
- Collaborated with senior developers to understand architectural patterns, reusable state management, and best coding practices.
- Proved adaptability and self-motivation, earning a promotion to Full Stack Developer within three months.

Education

Hetauda School of Management, Bachelor in Computer Science

GPA: 2.82

- Certifications:** Meta Front-End Development Specialization – Coursera
- Coursework:** Data Structures, Web Development, Software Engineering, API Integration, Responsive UI/UX, JavaScript Frameworks (React.js, Next.js), Database Design
